

# HOW IS YOUR VOTE BEING COUNTED?

*Is Your Vote Being Counted?*

A recent headline read:  
**“LESS THAN HALF OF CALIFORNIA  
VOTERS HAVE CONFIDENCE THEIR  
VOTES ARE ACCURATELY COUNTED”\***

\*headline reporting  
of recent field poll

Issues surrounding how our elections are being conducted have become as much of the news story as the elections themselves. With the introduction of electronic voting machines into our electoral process, new questions are being raised and new words are being bandied about:

*Central Tabulator Memory Cards DREs Optical Scanners Touch Screens*

**What are they?  
Who monitors them?  
Can they be monitored effectively?**

The League of Women Voters of Los Angeles will be leading an interactive discussion on these issues and other election day conduct. Join us for a presentation, discussion and lunch.

Help the League help ensure accessible, secure, and accurate elections!
