PARKING INSTRUCTIONS

The UTLA building has its own parking structure. The cost to park in this structure is \$5.00 all day, if you arrive before 10:00 a.m. Otherwise, the price is approximately \$13.00 per day. There is a special needs parking area under the building for those with properly displayed DMV placards. (Bring your vehicle close to the chain link gate.) Elevators from both parking locations are available to enter the office building.

There is a separate driveway entrance for each of the parking structures. However, they are side-by-side and each accessible from Berendo Street. However, there are stairs at this entrance so if you have a cart, or have difficulty with stairs, you may want to enter the building from the Wilshire side of the building to avoid the stairs. Please be prepared to sign in and show identification to the security guard upon arrival.

An alternate commercial parking lot is located in an open lot on Berendo directly across from the UTLA parking structure (east side of street, on the right from Wilshire). The cost is \$7.50 all day. Street parking is limited directly around the building, however, a block or so away there is untimed parking.
